MANAGEMENT DISCUSSION AND ANALYSIS REPORT

This report covers the operations and financial performance of the Company for the year ended 31st March, 2017 and forms part of the Directors' Report.

OVERVIEW OF THE BUSINESS OF THE COMPANY:

The Company "Osiajee Texfab Limited" is basically engaged in Textile Business. As the Indian Economy is growing rapidly, the growth in the textile sector is also speeding up to align with the growing demands of developing economy. The Board is looking forward to explore the potential offered by this sector and maximise value for its shareholders.

In order to create sustained shareholder values that capitalizes on socio- economic changes in India driven by rapid urbanization and consumer spending. The company proposes to drive cost leadership and new solutions. It is the intent of the Company to maintain tight control on capital/ spent in these areas and to focus more on value creation through new solutions and service offerings.

TEXTILE INDUSTRY:

India is the second largest global producer of textiles and garments. The abundant availability of raw materials (cotton, wool, silk and jute) and a skilled workforce have graduated India into a global sourcing hub, employment driver and net foreign exchange earner. The Indian textile industry is export-oriented, facing many challenges, which can be primarily attributed to sluggish global demand as well as deteriorating global competitiveness of the domestic textile industry.

Nevertheless, there are growth opportunities for the Indian textile industry, especially in yarns and fabrics by integrating with leading readymade garment-exporting countries like Bangladesh and Vietnam. Made-ups is another promising sector. In addition, the rising cost of textile manufacturing in China offers attractive opportunities provided suitable policy actions are taken in time.

BUSINESS SEGMENT – TEXTILES

a) Industry structure & Development:

The Indian textile industry market share presently is USD 108 billion, out of which USD 68 billion is domestic consumption and USD 40 billion is exports, due to which India emerges as the second largest exporter after China having 6% share in the global trade. The industry is taking all steps to promote textile exports, which is the need of the hour. Costs are increasing due to rising input costs, including labour and power. The fall in the Rupee against the US dollar should act positively for promotion of exports. Focus on new product development and value added products is continuing in this segment.

b) Segmental Review and Analysis:

The Company's main business is trading of grey fabrics. All the activities of the Company are related to its main business. As such there are no separate reportable segments.

c) Opportunities & Threats:

India has the potential to double its market size in the long run as China is losing its competitive advantage in textiles mainly on account of increasing labour & power costs, the appreciating Yuan, and focus on the domestic market with high value products. The shift from China to India is expected to happen in the long run, to make India a dependable source of supply for the World. Increasing competition from countries like Bangladesh, Vietnam, Pakistan and Sri Lanka due to favourable tariff structures on exports to developed markets like the US, 29 EU, Canada, Australia, etc poses a significant challenge to Indian exports. Exports from India attract a much higher duty as compared to other Asian countries.

d) Outlook:

To overcome the challenges and competition, we have taken various initiatives to reduce the operational cost, development of new innovative value added products, and exploring new markets based on certain parameters, to achieve better margins in the future.

During the year ended March 31, 2017, your Company's Revenue from operations has been Rs. 21,54,78,223.

“Annexure B” to the Independent Auditor’s Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s. OSIAJEE TEXTFAB LIMITED (“the Company”) as of March 31, 2017 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or

timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
